## EXPERIENCE

### Web Developer | UTHealth | Nov 2016 - Present

- Design micro-sites and print material in Adobe Illustrator and Photoshop.
- Implement sites and pages in CMS using Foundation framework, Bootstrap, CSS, JavaScript, XML and JSON.
- Ensure compliance with the latest accessibility and UTHealth brand standards.

### Web Production Developer | TopSpot | Sep 2019 – Jan 2021

- Diagnose and resolve issues on client sites using PHP, HTML, CSS and JavaScript.
- Create web-based tools and applications with PHP, MySQL, jQuery and AJAX.
- Develop new functionality in existing sites by integrating 3rd party RESTful API's and parsing data provided in JSON or XML format.

### Webmaster | IT6sNow.com | Feb 2015 – Sep 2016

- Redesigned and maintained site to reflect modern design language
- Designed pages using Adobe Illustrator and Photoshop
- Programmed site using HTML, CSS for design and jQuery for animations
- Implemented custom look in Weebly CMS

### Web Developer | Montrose Bags | Feb 2011 – Dec 2016

- Utilized open-source technologies to create responsive websites
- Designed and programmed E-commerce sites in PHP & MySQL
- Ensured proper configuration maintenance of Apache server

### Technology Lead | Houston Library | Mar 2015 – Nov 2015

- Created and conducted technology classes and created a streamlined education system for other teachers to use that would reduce prep time by over 50%

### Webmaster | Bag Republic LLC | Nov 2005 – Jan 2011

- Used Photoshop and Dreamweaver to design and implement custom templates for osCommerce based shopping sites
- Utilized Linux, Apache, PHP and MySQL stack to create custom widgets and ensured ongoing functionality for the site
